

**ONiIX PRO**

Improving Simulation Training Globally

Improving Simulation Training Globally

# Introducing the New Laparoscopic Training Solution

## ONIX PRO - Laparoscopic Visualisation Camera

Innovation that closes the gap in laparoscopic training visualisation with real life surgery. We are committed to improving the surgical training experience globally with advanced imaging.

The ONIX PRO is a future-proof Laparoscopic Visualisation Camera with technology that allows you to focus on your procedural steps and significantly improves the surgical training standard.

Improved surgical training experience.

USB3.0 1080P Portable High Resolution CMOS Laparoscopic Camera.

Ultra HD IPX7 Waterproof C Mount Optical Head Adapter.

1 year manufacturer's warranty as standard.

The ONIIX PRO Laparoscopic training camera was design to change the trajectory of Surgical Simulation Visualisaton.

It enables surgeons of all surgical levels to practice and improve their surgical skills and camera operation.

We believe realistic training should underpin all surgical training pathways. This innovation allows huge advancements in training visualisaton.

**ONIIX PRO** is compatible with all surgical simulators and connects directly to your computer or Laptop with USB 3.0. It is driver free and compatible with Windows software and Camera APP.

# Advanced Imaging - For Improved Surgical Training Outcomes

## State-of-the-art Medical Training

**Our Mission** is to improve simulation surgery globally for surgeons who are invested in developing their skills and knowledge, helping design education that best fits your needs.

**ONIX PRO** can be utilised for Hands-on Courses, Virtual Learning Courses, Expert lead Workshops, Peer-to-Peer trainings and CPD Training Events.

# Supplier Information for ONIIX PRO

**ONIIX PRO** has been designed to ensure minimal processing is required for upstream suppliers and end users. The HD Camera, 10W Lightsource and Optical Coupler all come in an IP67 rated black hard case for secure transportation and protection.

All Optical Lens options come in a stylising and protective white box including silicone end caps.

**ONIIX PRO** is assembled in the UK and can be shipped E-direct to customers globally to avoid unnecessary transportation and CO2 emissions.

We can include supplier information such as business cards, brochures or QR codes.

Please speak to us for more information.
